### IOWA STATE FAIR AND EXPOSITION

Beautifully located on a tract of 360 acres which are ideally adapted to a fair and exposition grounds, the Iowa State Fair and Exposition has an exhibit area, automobile parking area, camping grounds, aviation field and sites for its buildings surpassing any other fair in the country. Portions of the grounds are covered with natural shade, while the balance is level and well turfed. Broad walks of brick and cement and oiled streets relieve the visitor from the annoyances of dust or mud, and make an inspection of the fair not only easy, but a decided pleasure.

### VALUE OF PLANT.

The following is a balance sheet taken off the books November 30, 1918, and sets forth the assets and liabilities of the state of Iowa insofar as the state fair plant is concerned. Your attention is directed to this schedule for the reason that it shows in a condensed form the value of the plant and the cost of the same to the state of Iowa. It will be noted in the items listed under liabilities that the state of Iowa has invested in real estate and improvements at the state fair grounds, since it was permanently located in 1885, a total of \$526,443.72. The present value of the plant is \$1,280,204.12. Deducting from this the accounts payable leaves a balance of \$1,279,959.26, or a surplus to the state of Iowa of \$753,515.54. In other words, every dollar the state has invested in the fair grounds plant is worth \$2.43 in property value. In addition to this remarkable showing the state fair, which is acknowledged to be one of the state's greatest and most practical educational institutions for the masses, is conducted annually without expense to the state of Iowa and has in the past twelve years paid the exhibitors \$719,-552.00 in cash premiums.

### Return Checks.

No Pass Out Checks Issued. Persons holding ticket for succeeding day will be admitted after nine o'clock p. m., by presenting same at pass gates; tickets to be taken up the following morning when the grounds are policed. Positively no return checks issued at outside gates.

### Bureau of Information.

A bureau of information will be manitained by the management in the lobby of the Administration building for the purpose of serving the public in every way possible.

### City Bureau of Information.

Under the direction of the Des Moines Chamber of Commerce a bureau of information will be maintained during the entire time of the fair. The main branch will be in the lobby of the court house, with branch offices at the three railway stations and at the State Capitol building. The office of the Chamber of Commerce is on the fifth floor of the Shops building at Eighth and Walnut streets. A list of lodging and boarding houses, with prices, will be kept by this bureau of information, and visitors are cordially invited to avail themselves of the opportunity thus afforded, free of cost, to locate lodging and boarding houses. You can feel perfectly safe in any place recommended by the Chamber of Commerce. They will also thank you to report to them promptly any exorbitant charges made by any boarding house, hotel or restaurant, barber shop, etc.

### Day Nursery.

A day nursery will be maintained in the Women and Children's building. This will make it possible for mothers with small children to attend and thoroughly enjoy the fair by leaving their children in the care of the nursery. Trained nurses will be in attendance each day and for a small fee the children will be well taken care of and entertained, but mothers will be required to furnish food for their own children.

### Women and Children's Building.

The Women and Children's building is a beautiful structure located on the hill east of the stock pavilion and agricultural building. The location is ideal, overlooking the main portion of the grounds and exhibit buildings.

The building was designed, as its name would imply, for the women and children in attendance at the fair. The rest rooms are large, well ventilated and furnished with comfortable furnishings. The spacious porches offer a resting place for hundreds of people.

In addition to rest rooms and other conveniences for women and children, the building contains many exhibits and educational features, among which are the baby health contest, day nursery, where babies may be left in care of trained nurses, child welfare and public health exhibits, an excellent art exhibit, exhibit of state traveling library, rural school exhibit, and a room set aside for daily demonstrations in domsetic science; also a large auditorium in which programs are given daily.

### Emergency Hospital.

An emergency hospital will be maintained on the grounds east of the agricultural building, in charge of a skilled physician and a trained nurse, accessible day or night. The management provides the hospital building and furnishings, but each patient is expected to pay the physician for services rendered.

### Check Room.

Check rooms in charge of reliable and reputable persons will be located west of stock pavilion, at the entrance of auto parking grounds and in the basement of the women and children's building. Packages may be checked at a nominal fee. Any overcharge should be reported to the management.

### Post Office.

A sub-station of the Des Moines Post Office will be located on the north side of Grand Avenue, near the telephone station. The office will receive and distribute mail, sell stamps, postal cards and money orders.

### Press Bureau.

The department will maintain a press bureau in the administration building with a competent person in charge. Manifold copies of the reports of awards in the live stock departments, daily programs, special orders and announcements, official decisions and all other matters of interest or value to the public will be furnished to the press. Representatives of the press at large, who may be assigned to or visit the fair during its progress, are respectfully invited to make this their headquarters and avail themselves of the facilities offered.

J. P. MULLEN, FONDA,

Vice President Iowa State Fair and Exposition, and Superintendent of Implements and Machinery.

### Express.

The express companies' offices will be located in the booths of the Stock Pavilion, between the north and east entrances. All express matter intended for delivery at the grounds should be marked and charges prepaid to the State Fair and Exposition Grounds, Des Moines. All express sent to individuals or firms in care of the secretary will be found at the express office and not at the office of the secretary.

### Railway Offices.

All the leading trunk lines will have offices at the grounds for the transaction of business and furnishing information relative to freight and passenger rates, departure of trains, etc.

### Telegraph Offices.

A branch station of the Western Union and the Postal Telegraph Companies will be maintained in the lobby of the Administration building, also in northeast corner of Machinery hall.

### Telephones.

A complete telephone system is maintained at the gorunds jointly by the management and the Iowa Telephone Company. Connection may be had to any part of the grounds, free; a toll fee of ten cents for downtown connections is charged. The central office will be located in a building on the north side of Grand avenue, at the intersection of Rock Island and Grand avenues. °

### Administration Offices.

All the officers and superintendents of the fair will have offices in the Administration buliding. This is a very handsome and useful office building, located in the center of the grounds. A cordial invitation is extended tio everyone to make the building their headquarters while at the fair.

### General.

The management will consider it a kindness if persons will report any mistreatment or extortion practised by any employe of the fair or concessionaire. They also ask for immediate information regarding the sale of intoxicating liquors. Don't wait until the fair is over to report or file complaint, but do it immediately.

Respectfully submitted,
C. E. CAMERON, President,
J. P. MULLEN, Vice President,
A. R. COREY, Secretary,
Executive Committee.
Iowa State Board of Agriculture.

## RULES GOVERNING THE HANDLING OF EXHIBITS FOR EXPOSITIONS AND FAIRS.

Articles (except Automobiles, Aeroplanes, Horses used for racing, or bucking contests, or Trained Horses or other animals used for other than exhibition purposes) for exhibition at expositions or fairs held under public auspices (See Note A) will be transported subject to the following rules:

1st—When exhibited at one exposition or fair, and then returned to point of origin (See Note B), articles will be carried, so far as relate to lines parties to this tariff, at full tariff rates going and free returning, if returned within 30 days after the close of the exposition or fair at which they are exhibited, and the bill of lading therefor is accompanied by certificate of the Secretary of such exposition that such articles were exhibited and have not changed ownership.

2d—When moving over a circuit of expositions or fairs, the articles will be way-billed at the regular tariff rate to each point of exhibition, and at the close of each fair, on presentation of a certificate from the Secretary of the fair that such articles were exhibited thereat and that no change of ownership has occurred, the inbound charges will be reduced to one-half of the tariff rates, and when re-shipped from the last point of exhibition to the original point of shipment via direct routes and the bill of lading is accompanied by similar certificate from the Secretary of the fair or exhibition, one-half of the tariff rates will be applied.

3d—Live stock "chiefly valuable for breeding, racing, show purposes, or other special uses," will be handled at less than full tariff rates as provided

herein only when carriers' liability is limited to the following valuations: (See Note C.)

Each horse or pony (gelding, mare or stallion) burro, donkey, mule,	
jack or jenny\$15	50.00
Each colt under one year old	
Each ox, bull or steer	75.00
Each cow	00.00
Each calf, 6 months old or under	20.00
Each hog 1	
Each sheep	
Each goat	5.00

NOTE A—These rules will not apply on articles moving to or from expositions held by manufacturers, dealers or associations for commercial or trade purposes.

NOTE B-Return movement must be via the same Railroad as the initial movement.

NOTE C—For the purpose of applying these rules, all shipments of live stock exhibited at expositions or fairs, will be considered "chiefly valuable for breeding, racing, show purposes or other special uses."

A. R. COREY, Des Moines, Secretary Iowa State Fair and Exposition.

# RULES GOVERNING EXPRESS CHARGES AND SHIPMENTS TO IOWA STATE FAIR GROUNDS—CIRCULAR I. C. C. A-2095,

Rule 1—When an additional arbitrary of a specified number of scale numbers is shown in this tariff it means an addition to the First-Class Scale rate, and the combined Scale rate must be used as a basis for ascertaining the through Classification charges. Where specific commodity rates are in effect there shall be added to such specific rates the amount represented by the additional Scale numbers, i. e.; 5 Scale numbers, add 25 cents per 100 lbs.; 10 Scale numbers, add 50 cents per 100 lbs., etc.

Rule 2—Unless otherwise provided, the Terminal and Switching Charges given herein for live stock in carloads will apply, regardless of the number of animals in the car.

Rule 4—Switching charges provided for herein must not be assessed on carload shipments of live stock, that may be unloaded for rest, feed and water, in compliance with the federal law.

Des Moines, Iowa—Iowa State Fair Grounds—the rate to or from the Iowa State Fair Grounds at Des Moines. Iowa, is 10 Scale numbers (or 50 cents per cwt. on interstate shipments) more than the rate to or from Des Moines, Iowa. (See Rule 1.) The rate on Live Hogs or Sheep is 50 cents per crate more than the rate to or from Des Moines, Iowa.

The rate on carload shipments between Iowa State Fair Grounds and all points is \$5.00 per car more than the Des Moines, Iowa, rate.

### NEWSPAPER SUBSCRIPTION SOLICITORS.

The following resolution, which was adopted by the International Association of Fairs and Expositions, will be enforced at the Iowa State Fair and Exposition:

"Be It Resolved, That no concession, booth or privilege be granted for newspaper solicitors except on request of its publisher or manager, mailed to the secretary ten days prior to the opening of the fair, which request must contain the name of the publication, privilege desired, and name of such persons as solicitors (who have been continuously employed for a period of three months preceding date of application).

"That such solicitors must be gentlemanly, courteous and honest in dealing with the public, and are absolutely prohibited from using any form of merchandise, animal, article or tickets for future drawings as gift or sale to influence subscriptions, under penalty of expulsion from the grounds.

"That all solicitors must purchase season tickets good for the entire week.

"And all solicitors in soliciting subscriptions shall confine their operations to the space or booth assigned them by the management of the fair."

### COLORS FOR AWARDS.

The following colors will be used in designating awards:

ChampionRoyal Purple
Reserve ChampionLavender
FirstBlue
SecondRed
ThirdWhite
FourthPink
FifthYellow
SixthDark Green
SeventhLight Green
EighthTan
NinthGray
TenthLight Blue

### ANNOUNCEMENT

Iowa's Sixty-fifth Annual State Fair is ready. It will be a demonstration extraordinary of Iowa resources, industry, wealth and citizenship. Its twenty departments represent the varied activities of the people of the state. No department is weak or lacking, some are filled to overflowing. To balance the great array of exhibits an attractive entertainment program has been provided, one of such scope and variety that every person must find something to enjoy. The visitor will note some changes and numerous new features, all of which are in the line of progress and consistent with the march of a great commonwealth.

### A VICTORY FAIR

For more reasons than one this year of 1919 is a fitting time for Victory celebrations and jubilees. The heartbreaking devastation of the world-wide war has been brought to an end. The world is groping a hopeful way back to sanity. A movement is under way which, it is hoped, will eventuate in perpetual peace and freedom from war.

Our own state has been blessed—as usual—with abundant crops. A visible prosperity abounds. Prospects for the future are alluring. The spirit of optimism is ascendant. Agriculture, with its allied industries, seems at last to have come into its own. It has taken on the dignity of a profession which promises to return the tiller of the soil a satisfactory remuneration

Appreciating all these things and realizing how Iowa has gained a victory over poor farming methods; over scrub stock; over ignorance and prejudice and various other influences that tend to hamper the growth of a commonwealth it seemed altogether fitting to call this year's exposition Iowa's Victory Fair.

### FAIR GROUNDS ENLARGED

Forty-one acres of land were purchased this summer and added to the plant on the north. This tract lies just across from the race track. It will fill a long and greviously-felt want. Among other things it will provide an aviation field 350 feet by 2200 feet in full view of the Amphitheatre. It will also provide additional parking room for automobiles to the number of 10,000 and thus relieve a congestion that had become an annual bugbear to fair officials as well as an inconvenience to visitors.

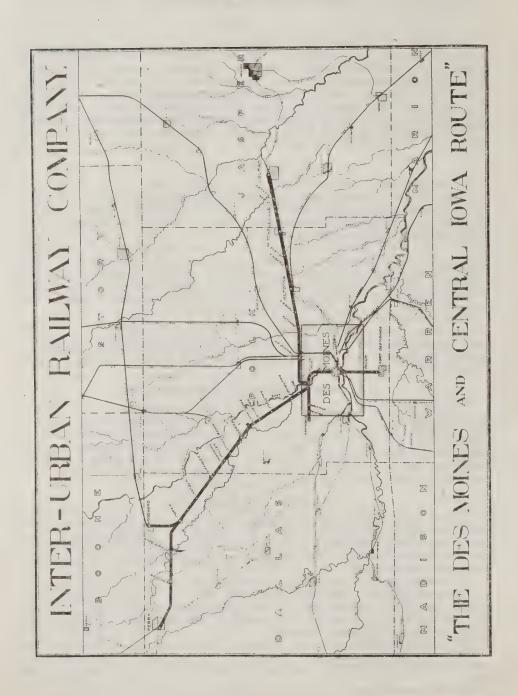

### LOCATION OF EXHIBITS

A word about the location of exhibits, as some changes have been made from last year's arrangement. The Government Exhibit this year will be found under the Amphitheatre, a part of it housed in the big show room and the balance, such as field ordnance, on the plat between the Amphitheatre and the sidewalk.

All the livestock exhibits will be found in their respective buildings which are grouped near the Rock Island entrance. The big Swine Building proved wholly inadequate to take care of the thousands of exhibits, and the overflow of hundreds of hogs will be located in the buildings just across the street north of the Swine Building.

The county exhibits, of which there will be an unusual number, will be found in the Agricultural Building, as will also the individual farm exhibits, dairy exhibits, horticultural exhibits, vegetables and other products of the soil.

The motor show this year has been located in Machinery Hall, just inside the main entrance to the grounds and on the south side of Grand Avenue.

# Of Interest to Stock Breeders and Growers

Did you ever STOP to THINK that your STOCK FARM located along the lines of THE INTERURBAN RAILWAY would induce more people to call upon you? WHY? BECAUSE Des Moines, the Capital City of Iowa, is of easy access from all points in the state.

THE INTERURBAN RAILWAY has many trains each way daily---on sale dates special service may be given and stop at your farm arranged. Our Colfax division parallels the River to River Automobile road. Close connection at Perry, Iowa, is made with all Chicago, Milwaukee & St. Paul Railway trains. TIME and MONEY will besaved by using the INTERURBAN RAILWAY to and from Des Moines.

### Colfax, Iowa

The greatest health resort in the West, is only an hour's ride from Des Moines. This beautiful little city has many fine hotels and natural mineral springs. Why not stop here during your stay at the fair?

### Mitchellville, Iowa

Located seventeen miles east of Des Moines. Is surrounded by one of the richest agricultural districts in Iowa. The home of the State Industrial School for Girls is located here.

### Woodward, Iowa

Located twenty-seven miles northwest of Des Moines, is surrounded by a fine farming and stock raising district---has good coal mines at its door. The State Epileptic Colony is located here.

### Perry, Iowa

Located thirty-five miles northwest of Des Moines. This city is noted for its wide, well paved and beautifully lighted streets, and is one of the most enterprising cities in the state.

### Freight Service

THE INTERURBAN RAILWAY has daily freight service each way for both carload and less than carload freight and is in a position to give special attention to each and every consignment.

There are many locations that will interest you. For further information call on or write

W. CLAPPER. Traffic Manager,

New Terminal West 2nd and Grand Ave., Des Moines, Iowa

Motor accessories will be shown under the Amphitheatre where the motor show was held last year.

The Cow Test Association exhibit will be in a big tent between the Stock Pavilion and the cattle barns. The State Institutions exhibit will be found in a tent west of the Sheep Pavilion and south of the main horse barns, while the industrial exhibits put on by the various institutions now have a permanent location in a building on the north side of Grand Avenue a short distance from the entrance.

### FOR INFORMATION

The offices of President, Secretary and department superintendents are located in the Administration Building, the big vine-covered structure surrounded by porches across the street from the Amphitheatre. It is the logical place to go for information or any business connected with the fair. Don't be afraid to ask questions.

### GOVERNMENT EXHIBIT

Uncle Sam has become a large exhibitor. Evidently his experience in that line last year—the first, by the way—proved satisfactory, for he will be back again this year on a much broader scale. There will be two departments or divisions; one devoted to Agriculture and one to war exhibits. The latter, which will consist of relics and trophies from France, along with all kinds of field ordnance and fighting paraphernalia, will appeal strongly this year, for obvious reasons. All told there will be six car loads of material in these exhibits. As stated they will be found under the Amphitheatre.

### MOTOR SHOW

The motor show has been allotted 60,000 square feet of space in Machinery Hall, where, in other years, the visitor was wont to study the exhibits of carriages, buggies, carts, etc. It will be a show of models of 1920, the first of the season for the exhibition of advance styles. Combined with passenger cars will be found all kinds of trucks and motor transports.

### FARM IMPLEMENTS AND MACHINERY

Perhaps in no other department of the fair is the march of progress so plainly discernible as in the machinery section. Inventive genius is fairly rampant of late years and every recurring fair brings the tangible results of its force and enterprise. This department shows more changes from year to year than any other. Formerly it was mostly housed. Today it is mostly too big to house. Huge tractors, with accompanying implements on the same scale, have to be shown in the open. This part of the fair is a wonderful show. It takes about forty acres of the plant to accommodate it.

### THE LIVESTOCK SHOW

About all one needs to say of this department is that it will be the typical lowa demonstration of purebred animals—and no better can be seen anywhere. The swine end of it will be stupendous. No other word fits the occasion. The big Swin Pavilion contains 1154 pens. When all are filled it means an average of a little more than two animals to the pen, so the show runs from 2400 to 2600 head. But this year the Secretary accepted applications for more than 1500 pens! Which gives an idea of what the show will be.

For obvious reasons the horse show will not be up to the lowa standard of five years ago, so far as numbers are concerned. But the quality will be there as of old. The Belgian division will be found strong, likewise the Fercheron and pony divisions. The cattle show will be a glorious one. An unusual number of Iowa breeders will be in the rings this year, due, no

doubt, to the inauguration of the series of amateur classes for breeders who had never shown cattle at the Iowa State Fair. Something like a dozen other states will be represented in the cattle rings.

### STATE INSTITUTIONS EXHIBITS

The various institutions under the management of the Board of Control will be on the grounds with two exhibits, one of livestock, mostly dairy cattle, and one of an industrial nature showing the handiwork of the wards of the state. It will include a great many manufactured articles, needle work, basket ware, canned goods and a host of articles too numerous to mention. These institutions exhibits are always excellent and stir a livelier interest in matters that ought to concern the general public vastly more than they do.

### THE AGRICULTURAL BUILDING

This building is centrally located and easy of access—in a way is the hub or pivotal point of the great exposition, inasmuch as it houses samples of the products of the soil that have contributed so much to Iowa's fame and made it the greatest of agricultural states. It contains all kinds of grains, fruits, vegetables, dairy products, county exhibits, individual farm exhibits, etc., etc. It is where the Goddess of Agriculture spills the Horn of Plenty. The variety of exhibits, the good music, the life and stir of it all make this building one of the most popular centers of the fair.

W. W. MORROW, Afton.
Treasurer Iowa State Fair and Exposition.

### WOMEN AND CHILDREN'S BUILDING

This building is headquarters for the women folk of the state. The Baby Health Contests will begin on Friday, August 22, and continue until all the numerous candidates have been examined and scored, which generally takes until about the last day. A series of style shows will be put on, one every day, demonstrating the various garments for women and children. There will be free concerts, and wild-flower pageants and many other features of interest.

### THE EXPOSITION BUILDING

The Exposition Building on the hill has been overhauled, renewed and greatly improved since a year ago. Painters and carpenters have contributed their bit. A cement floor has been laid in booths and aisles. It sports a new roof and the interior has been rearranged to improve lighting, ventilation and other matters. This building contains mercantile and industrial exhibits, textiles, fabrics, china, fancy work, etc.

### ART EXHIBITS

Exhibits of graphic and plastic arts will be found in the basement of the Women and Children's Building. Only Iowa artists are allowed to compete for the prizes, the idea being to encourage the development of Iowa talent. A loan exhibit has been secured from the East which will add materially to the interest and give visitors and critics an opportunity to compare native Iowa talent with the rest of the world.

### RECREATIONAL FEATURES

The management believes that in the long run the fair which wins lasting success and popularity is the one that presents a happy balance of educative and recreational features consistent with the life of the people it represents. The program arranged this year presents a wide variety of music, racing, aviation games, sports, shows and contests.

### MUSICAL FEATURES

There will be no lack of music. Among the bands are the Thaviu Band of Chicago, the Henry Band of Des Moines, the 168th Infantry Band, Fischer's Burlington Band, the National Drum Corps, the Royal Hawaiian Orchestra, Mahaffey's Orchestra and various other organizations. Beginning in the morning there will be free concerts at the various band stands and in the buildings throughout the entire day.

# HUDSON SUPER SIX ESSEX MOTOR CARS

The world's largest selling fine cars

HUDSON-JONES AUTO CO.

1212-14 Locust St.

Phone Walnut 109

### RACING PROGRAMS

There will be two days of auto racing and five days of horse racing. The autos will race Friday, August 22, and again Friday, August 29. The program will contain not less than ten events and a dozen or more of the noted dirt-track drivers of the country will compete.

The horse-racing programs are unusually voluminous and attractive. All told there are thirty-one events scheduled for the five days. Races for harness horses, races for the runners and for the free-for-all trotters.

### THE NIGHT SHOWS

Beginning Friday, August 22, the great scenic military spectacle entitled "The Battle of Chateau Thierry" will be put on six nights. Nothing like it was ever attempted before in the Middle West. The stage setting is 450 feet long. The scenic canvas, painted to represent the historic city, contains 35,000 yards. The production is under the direction of military experts and will be a vivid portrayal of the methods employed in the late war.

Beginning Saturday night there will be a series of horse shows in the Stock Pavilion. The program includes contests between the fancy harness horses, the gaited saddlers, high jumpers, etc. Special circus acts, parades of prize-winning animals, music and other features will contribute to the enjoyment of the affair.

E. T. DAVIS, Iowa City,
Supt. Public Safety Department, Iowa State Fair and Exposition.

### AVIATION

The management was fortunate in securing contracts with the two noted aviators, Louis Gertson and Lieut. Walter Pack. The profession knows no more intrepid or efficient flyers than this pair. In the afternoon they will put on a series of sensational exhibitions that can be most aptly described by the term "sky vaudeville." At night they will put on aerial combats in connection with the battle scene that will be very realistic.

### AUTO POLO

This always popular feature of the fair will be furnished again this year by the Hankinson teams, the same that have appeared the last two or three years. Hankinson is the man who originated the game, and while there have been numerous imitators, none, somehow, have been able to put the vim and snap and thrills into it as played by the Hankinsons. It will be featured every afternoon in connection with the racing programs and again in the evening under electric lights.

### CIRCUS AND HIPPODROME

No less than sixteen free, open-air circus, hippodrome and vaudeville acts will be presented each afternoon in front of the Amphitheatre in connection with the racing programs, and again during the night entertainment. These sixteen acts present a wide variety and cover the field from the sublime to the ridiculous.

### **FIREWORKS**

Each evening program will end with a gorgeous display of fireworks, furnished and put on by the Thearle-Duffield Company, which is a guarantee of their excellence. The display will be of a patriotic character, the set pieces dealing with events intimately connected with the late war and with current events.

### JUDGING PROGRAMS

A word about the judging programs. All the cattle and draft-horse classes will be called in the Stock Pavilion. The ring is large, the seats comfortable and lovers of the various breeds can watch the work of the judges and study the types in comfort. Some of the harness and saddle classes will be held in a new ring located between the street car entrance and the main horse barn. Swine and sheep will be judged in the rings provided in their respective buildings.

The judging program will begin Friday, August 22, when the amateur cattle classes will be called. These classes, it will be remembered, were inaugurated this year and are for Iowa breeders who had never shown cattle at the Iowa State Fair. Judging of ponies and mules will begin Saturday. Classes for other horses will start Monday. The Boys' Baby Beef Contest, one of the most interesting of all the many contests conducted during the fair, will be called Saturday in the Stock Pavilion.

### RENT ONE OF OUR TENTS

for your next public sale, any size you need—and a price and service you will like. We also have camping and tourists' outfits.

DES MOINES

Des Moines, Iowa

### THE C. A. WORTHAM'S WORLD'S GREATEST EXPOSITION SHOWS.

On Midway, North of Administration Building.

Presented, Directed and Managed Personally by the Owner, MR. C. A. WORTHAM.

The Big Wild West and Indian Congress.

A true, realistic representation of the past glories of the old stage coach pioneer days; introducing Major Verne Terlinger, famous scout, cowboy, boomerang thrower, lasooer and lariat roughrider, late of Ringling Brothers' circus and the 101 Ranch Wild West. His career stands in history with such celebrities as Kit Carson and Buffalo Bill. Annie Terlinger, the world's champion woman rifle shot and a cast of wild westerners and Indians will appear.

### Don Carlo's Dog, Pony and Monkey Hotel.

A surprising and wonderfully educated and trained animal act; all performing and playing a regular comedy sketch, and for extreme novelty is an entertainment unsurpassed.

### Joyland Follies.

Is a musical extravaganza, presented by Mr. A. D. Murray, and directed by Lilian Carson Murray. It comprises a complete company of singing and dancing principals, prima donnas and comedians, well-known artists of reputation. A regular high-class theatrical production.

### Captain C. La Dare's "The Girl from Delhi."

Is a mystical astral vision; a masterpiece of cosmic phenomena, unequalled in mystic art; a performance that completely astounds, bewilders, puzzles and baffles all experts. This newly discovered and invented scientific display is covered by sixteen patents and copyrights.

### The Monster "Auto Stadium."

This daredevil attraction presents girls and men, reckless drivers in prize-competition automobile and motorcycle races around a 150-foot almost-perpendicular track, through hoops of fire, a thrill a second; a sensation unequalled for daring and bravery.

### "Stella" and Her Submarine Girls.

Is a real acquatic exhibition; all water performers with prize-medal records; fancy Australian-stroke swimmers, high divers, Monte Cristo sack escapers; using a patented glass tank, illuminated with electrical effects and settings.

### Genuine Filipino Midgets.

Miniature men and women from the Philippine Islands; most interesting small people; intelligent and entertaining in native character songs, sketches and dances. Two of these curiosities are the smallest people in the world. There is no exhibit anywhere that appeals more to the children.

### "Over the Falls."

For the past two years the leading attraction at Coney Island, New York, and at Riverview, Chicago. It took the inventors and constructors, Messrs. Kilpatrick and Klass, over a year's time and serious thought, costing thou-

sands of dollars, to construct and rebuild this novelty for "the road," but the public appetite for excitement is appeased, and this novel ride will be found on the Midway.

### The Popular Athletic Hippodrome.

Where the athletic contests are held, by the all-nations champions, giving several daily exhibitions in friendly contests for supremacy, wrestling and sparring matches, including local favorites.

### "A Barrel of Fun."

A newly invented idea of sensational funnyisms.

### The "Royal Eden Museum."

A massive collection of imported life-size, Jarley-model wax-figure representations in duplicate of the earth's most famous celebrities, including all the renowned statesmen and notables at the Versailles peace conference in the "Hall of Fame."

### "Danger."

Is a new version, a later idea and model, of the old underground Chinatown; an improved realistic object lesson to all beholders; showing the dangerous results of the use of deadly drugs and quack medicines. An exhibition endorsed by all the leading physicians, as an illustrated warning for the proper method of living.

### Pajana's Mammoth Enlarged Circus Side Show.

Includes all new attractions, human curiosities, calculated for the wierd showing of nature when in her most fanciful, eccentric mood.

### Pajana's World Curiosity.

First tour and season of this secret surprise, "El Azteca."

### The Crystal Tangle Maze.

Is a new and marvelous achievement in mirrored mechanical effects. An intricate laughing maze, a confusing labyrinth of entanglements.

### The Bug House Fun Show.

The title explains itself to all visitors of this style of amusement.

### "The Whip."

Several new sensational thrills have been added to this idea in joy rides. The surroundings have also been improved in the fancy Alhambra garden plaza by costly additional embellishments and a generously bright electrical showing.

### The New \$15,000 Mammoth Ferris Wheel.

### "The Frolic."

A new and intensely clever riding device; last season an attractive feature at Coney Island.

A Brand New \$20,000 Jumping Carrousell.

10:00—Awarding of prizes, silver loving cups and medals to babies who scored highest in the Baby Health Contest.

#### THE FESTIVAL OF "INDIAN CORN."

(A Synopsis.)

#### By Miss Esse Hathaway.

To be given at Iowa State Fair under the direction of Miss Hathaway, assisted by Miss Pearl Bennett and a cast of thirty Iowa children.

#### Proloque.

The Legend Bearer comes from out of the distant past to tell the friends of the Middle West of the land that lay there undisturbed under sun and rain and winter snows long centuries ago, and how the Prairie Spirit brooded over the plains, bringing all things good to the land she loved, until one day she suddenly discovers the Corn Maidens asleep. With sudden vision of their purpose there, she wakens them to join in her dance. Because of their gratitude for this new life the tiny maidens tell the Spirit that they will bring the Priestess of the Indian Corn to bless the land with the magic of her golden grain and the music of her swaying, swinging leaves. Busily they lay a hearth stone and erect an altar of all things fair and good, and as the Prairie Spirit watches them, she suddenly has a vision of fair homes, of splendid state and then of finer things of heart and mind and soul that are to come to her great rolling plains. With the completion of their work the Corn Maidens listen intently and then bow in sudden surrender as the Priestess of the Indian Corn appears, bringing with her the tools of magic secrets, and a huge round bowl of golden grain.

#### Home Building.

ı.

A plainsman comes from out of the East, weary with his long quest for a home in this fair land of rolling hill and broad grass-covered plains. In the sleep that follows he is made to see the vision of a home, a state, and later, through the long, long years, a splendid race grown strong in mind and soul as well as physical content. A few grains of the golden corn are placed in his open palms, and as he awakens, he closes his palms and feels them there. He nibbles the grain slowly, and as he does, he knows that here is the new hearth stone for him and his, and as he leaves, the Prairie Spirit and Corn Maidens dance in joy that the first of their dreams is to come true. At the close, the maidens drop down to sleep, and the day dies softly out.

11.

As the new day dawns, the plainsman returns with his wife and little child. With nothing but their faith in the golden corn to keep their courage alive they lay their first fire and rest—only to waken hungry and with a realization of their helplessness in this broad wilderness of sun and sky and plain. With gracious beneficence, the Priestess of the Indian Corn points the way to peace and plenty through the fields of corn, the Corn Maidens awaken, the summer comes on apace, the sun and rain chase each other in wild play until the corn ripens and the man and woman and child take heart once more and rebuild their fire. A deep thanksgiving fills the summer day.

#### State.

As the seasons come and go and prosperity continues to attend the land, there comes a time when it seems wise for the new settlers of the plains to come together under justice and unity of law. With the help of the herdsman and the maid of the Dairy, the Corn Maidens erect the pillars of state, on a solid foundation of golden grain. The young state, Iowa, takes her place on a substantial basis of material products. The Wild Rose is the only indication of the finer beauty that may come later.

#### Mind.

The Prairie Spirit grown somewhat eager to bring out the exquisite coloring of her land; the music of the wind and water and the songs of the birds, the greater depth of mind and heart into the lives of the people, as the dream had promised long ago. But the growth of wealth so crowded out all other growth that when she attempts to bring in art and song she finds them frail and wan. But they drink of tall beakers of milk and eat of the golden corn until their weakness gradually leaves them and they break forth into a glad free dance of triumphant strength.

#### The Spirit.

Suddenly a discordant note strikes across the content of the day. Although there is plenty and to spare on the Western plains, ugly rage and hunger strip the lands across the sea of life and peace. From out the store of bountiful harvests, Iowa reaches full hands to meet the need of tiny children, frail and faint from many lands are fed until they grow strong again. From the altar of fair promises the Priestess of the Indian Corn sees her golden grain go out across the sea until a magic strength binds the people of her land with those of alien blood into a gracious Brotherhood.

- 3. Exhibits of demonstration contest work.
  - Forenoon program, 9:00 to 12:00.
  - Afternoon program, 1:00 to 4:30.

# IOWA STATE COLLEGE EXHIBIT AT IOWA STATE COLLEGE BUILDING.

During the past two years when the war was in progress, the State College exhibits have followed the general theme of conservation. This year since peace has been declared, the theme has been changed to fit the times, and the general idea set forth in the college exhibit this year will be, that in the past Iowans have lived largely on hard work and substantial food (on the corn bread and pork chops of life, as it were), but that it is now time to have more of the sweetness and refinement of life (the strawberries and cream, so to speak).

In order to emphasize this point in the minds of all visitors, the central feature of the exhibit will be a large platter fifteen feet in diameter heaped

with beautiful ripe strawberries, two to two and one-half feet in diameter and poured over with thick rich cream. This attraction feature will be placed directly opposite the main entrance, and above it in large letters will be placed the main title of the exhibit about as stated above.

The educational exhibits accompanying this will be prepared by the Horticultural, Dairying and Engineering Divisions. The Horticultural Department will occupy a space sixteen feet by fifty feet in the central part of the building, with an exhibit setting forth the advantages and methods of establishing and caring for a suitable farm, orchard and fruit garden so as to get the greatest benefit with the least possible outlay of itme, labor and money. This exhibit will include a full line of spraying equipment and material and the man in attendance will be prepared to discuss with and advise visitors in regard to all such matters.

The Dairy Division will occupy the whole east side of the building. In one booth will be demonstrated methods of making various kinds of soft cheese on the farm. Another booth will contain a display of inexpensive equipment for the cooling and care of milk on the farm. In the third booth the food value of various milk products will be emphasized and demonstrated, and in the fourth booth will be set forth the results of experiments conducted at the college to determine the amount of improvement that can be made in milk production, first by proper methods of feeding, and second by the use of the best type of dairy sires in a herd of common cows.

The west side of the building will be occupied by the Engineering Division and will include three booths, the exhibit in the first booth covering automobile operations and care. In connection with this will be shown sectional motors, tires, carburetors, etc., and bulletins of information on the care of the car will be distributed. The second booth will contain a visual instruction exhibit where lantern slides and motion pictures will be shown. In the third booth will be a demonstration of the method of casting plate, and souvenir watch fobs will be distributed.

The auditorium at the south end of the building will be occupied as usual by the canning clubs, and daily demonstrations and competitions will be conducted. A large number of county canning clubs have already arranged to take part in these competitions and this feature will possess the usual interest to the public. The auditorium will be open to the public all day each day of the fair.

A small booth near the entrance will contain an Information Bureau where information can be had in regard to all courses of instruction offered at the college. Young men and women who are thinking of taking any kind of course at Ames should not fail to call at this booth and get all information which they require, also secure printed literature covering courses and college life in general.

The State College building containing these exhibits is located among beautiful shade trees near the top of the hill and commands a fine view of the fair grounds and the city in the distance, and people from the farm should not fail to visit this building some time during fair week, as it will contain much of useful interest to all persons interested in farming, as well as to persons interested in engineering education.

#### DAILY FAIR PROGRAM IN DETAIL

#### . WEDNESDAY AND THURSDAY, AUGUST 20-21.

Wednesday and Thursday, August 20th and 21st, are designated as preparation days and all live stock, machinery and other exhibits are to be arranged and put in place on these days, ready for inspection by the public by 9:00 a. m., Friday, August 22d. All live stock exhibits are required to remain in place until 4:00 o'clock, Friday, August 29th. Live stock may be placed in barns on and after Monday, August 18th. All department superintendents maintain offices in the Administration Building. The superintendents will be ready to transact business and place machinery and other exhibits on and after Monday, August 18th. On Wednesday, Thursday and Sunday, August 20th, 21st and 24th, 25 cents admission fee will be charged at the outside gates. Vehicles will be admitted free on the above dates; also after 5:00 p. m. each day of the fair. Advance sale tickets, including reserve and box seat tickets for any afternoon or evening performance at the grand stand and live stock show in the Stock Pavilion will be on sale on and after Wednesday, August 20th, at the booth near the east entrance to the grand stand. For admission fees, at the outside gates, grand stand and Live Stock Pavilion, see admission prices on page 9.

#### FRIDAY, AUGUST 22.

#### Auto Race Day and Children's Day.

The gates will be thrown open at 7:00 a.m. and full admission fees will be charged for adults, vehicles, etc. All children under fifteen years of age will be admitted free. Buildings and stock barns will be open to the public and all exhibits in place by 9:00 a.m. A special invitation is extended to all children to attend the fair on this day. Children are especially requested to visit the cattle barns, containing the exhibit of baby beeves, fed and shown by the boy and girl club members of the state of Iowa. Attention is also called to the exhibit of pigs fed and shown by the boy and girl members. The boys' and girls' club building contains exhibits by canning clubs, school work; also canning demonstrations by county teams. A feature of special interest to the children is the exhibit of Shetland ponies in the brick horse barn. At 2:00 p. m. a display of daylight fireworks will be given for the entertainment of the guests of the day.

#### Forenoon.

8:00—All live stock and other exhibits in place. Buildings open; machinery in motion, ready for inspection by the public; boys' judging contest and judging contest by a number of county teams for the state championship—\$800 in eight scholarships to the Iowa State College of Agriculture, and a beautiful silver loving cup, the gift of W. J. Kennedy, Sioux City, Iowa, will be awarded to the individual boys who do the most efficient work in judging classes of horses, cattle, swine and samples of corn, and writing reasons substantiating their judgment. Four hundred dollars will be awarded in cash prizes to the teams doing the most efficient work in the judging contest.

Intermission, five minutes.						
5. "Call to Battle" from Rienzi						
(c) Trio, Finale, Act I, "Traviata"Verdi						
Soprano, Tenor and Baritone. 7. Overture, Solonnelle, 1812, by P. Tschaikowsky, Opus 49						

This overture, originally written in celebration of the consecration of the Cathedral of Christ the Redeemer, in Moscow, commemorates the withdrawal of Napoleon from Moscow in 1812, when, after he had occupied the Kremlin, the inhabitants fired the city and drove the French general from the city.

As originally planned, the overture was to be played out of doors, in the public square in front of the cathedral by an orchestra of grand dimensions, reinforced by volleys of artillery and a full military band for the finale. The score of this overture was completed by Tschaikowsky at Kamanka in 1880.

This "1812" overture is by far the most widely known of the Russian composer's music, and a few words will suffice to describe the general plan of its structure and suggest its gorgeous display of orchestral resources. Three easily recognizable themes form the principal material of this overture, the first (the one with which it opens with violas and violoncellos in solemn harmony) being taken from the Russian hymn, "God Preserve Thy People," the second the French "Marseillaise" and the third the Russian National Anthem.

The introduction to the overture is slow and solemn, the theme being the Russian hymn mentioned. Then comes the approach and gradual apparent victory of the French (the "Marseillaise"), rising higher and ringing clearer, until everything is overwhelmed in a mighty uproar, out of which the opening theme emerged triumphantly, now most sonorously scored for the full orchestra. A boisterous coda, with the Russian National Anthem in the bass, then brings the overture to a crashing close.

- 9:30—Judging ponies in show ring near street car entrance.
- 9:00-Judging Chester White and Hampshire swine in Swine Pavilion.
- 9:00-Judging Sheep in Sheep Pavilion.

# You Are Invited to Visit The Iowa Homestead Booth and Building

S IN past years The Iowa Homestead again invites its subscribers and friends to call at our booth on newspaper row, and we also extend a most pressing invitation to all who possibly can, to visit our new Homestead building at 1912 Grand Avenue. Every man and woman who honors us by calling either at our headquarters on the fair grounds or at our new home here in the city will be welcomed and receive our personal attention. It is conceded that The Homestead building is one of the most beautiful structures in the state. It is equipped from top to bottom with modern machinery of all kinds used in the printing business, and we shall be delighted to show our friends through the whole building. Special guides for that purpose will be on hand throughout the entire fair week.

The Iowa Homestead
DES MOINES - - IOWA

# Queal Lumber at the Fair

Two Yards

220 E. Grand Ave.

and

7th & Chestnut Sts.

QUEAL QUALITY LUMBER was used in a number of the buildings and exhibits, the very first time a fair was operated here at these grounds. Ever since, Queal Lumber has predominated. There's a reason for its predominance.

Just as it is used each year at the Fair grounds, it is also used in putting up many Des Moines homes and buildings.

If you are going to build, it will pay you to tell your contractor to use QUEAL QUALITY LUMBER.

An extensive Government exhibit from the Department of Agriculture will be found in the large exhibition room under the grandstand; also a large collection of war trophies from the battlefields in France and an exhibit of guns, ammunition and other paraphernalia used by the United States in the World's War. There will also be on exhibition south of the Administration Building one of the large thirty-five-ton tanks and several pieces of tractor artillery. This will include the famous 75 mm, anti-tank and anti-aircraft guns.

FARMERS, the world needs more hogs. Many farseeing, highly successful farmers have their entire properties fenced with hog-tight fencing. Shifting their stock into each field after harvest adds profits from grain usually wasted.

# "Pitisburgh Perfect" Fence

positively bars hogs. They can't lift it, nor slip the stays and go through, for the tough, strong, heavy, basic, Open Hearth wires, ELECTRICALLY WELDED at the joints, produce a stiff, rigid, one-piece solid fabric of steel. Barbed wire strung above the lower sizes makes them suitable for general farm purposes.

SOLD BY DEALERS EVERYWHERE

# Pittsburgh Steel Company Pittsburgh, Pa.

# WEDNESDAY AFTERNOON.

# THURSDAY, AUGUST 28.

# Live Stock Parade Day.

The Iowa State Fair and Exposition is famous in that it stands at the head of all state fairs in the number of horses, cattle, swine and sheep on exhibition. It is known over the length and breadth of the country as the leading live stock and agricultural exposition. It has been the earnest effort of the management to build a fair along educational lines and at the same time provide a liberal amount of wholesome amusement features.

The Million Dollar Live Stock Parade will form on Rock Island Avenue in front of the Live Stock Pavilion and on the avenue west of the Administration Building and will pass in review in front of the Grandstand promptly at four p.m. Lovers of pure-bred live stock cannot help but appreciate this extraordinary showing of the very best representatives of all the leading breeds of horses and cattle to be found in this country.

1:30 to close of program—Thaviu's Band and Chicago Grand Opera Singers.

Hankinson's Auto Polo Teams in Competition.

## Motor Transport Parade.

1:00 to 2:00—For the purpose of demonstrating the methods of transporting by truck and to show the various types and models used arrangements have been made for a parade of all types of motor trucks. It is anticipated by those promoting this phase of the program that from eight hundred to one thousand trucks will take part in this parade.

# Auto Race Program.

The meeting is sanctioned by the International Motor Contest Association. The members of this association are made up of managers of state fairs and managers of dirt tracks where automobile racing has been made a part of the program. The purpose of the contest association is to provide rules and regulations governing auto racing over dirt tracks; to properly protect and safe-guard the public witnessing the contest, and to license drivers who are qualified to participate in dirt track races. No amateur will be allowed to compete in any race held under the sanction of the International Motor Contest Association. No professional driver will be allowed to compete until he has furnished sufficient evidence that he makes as his profession the driving of especially constructed racing cars. The afternoon program will consist of not less than ten events to be announced through the daily papers. The following is almost a complete list of cars and drivers taking part in the various events.

Name of Car Briscoe Duesenberg Auburr Special Benz Fiat Minerva Special Peugeot Special Buick Special Chevrolet Hudson Clergy Special The Ford Darracq Stutz Harrington Special Name of Driver Fred Horey George Clark R. # Noted for

# Diamonds of Quality

For nearly 50 years Joseph's have been noted as diamond merchants of the highest class. Their service has extended to all parts of Iowa and the Middle West. There is additional satisfaction to the recipient in finding the Joseph name in the box, as it tells everything necessary to know regarding quality and value.

> Joseph diamonds are all fine blue white, brilliant, properly cut stones, whether you pay \$12 or \$1200.

### BREEDERS' PRIZES.

The following prizes will be awarded to breeders in Percheron classes:

Premier Breeder's Prize.

To the breeder of animals winning the largest amount in prizes in the Percheron classes . . . . Special Premier Breeder's Champion Ribbon or Banner

#### Individual Breeder's Prize.

#### Exhibitor's Prize.

#### SPECIAL PRIZES.

# Offered by the Percheron Society of America.

The Percheron Society of America offers the following special premiums to be competed for by the exhibitors of this show:

- 1. Special ribbons will be awarded to the three American-bred horses that stand highest in their respective open classes, any age, both sexes. Example—If the first, third and fourth prize aged stallions in the open class are American-bred horses and the second and third prize horses are imported, the three special ribbons given by the Percheron Society of America will go to the first, third and fourth prize stallions in the open class because they are American bred. The same arrangement applies to all the other classes where individual animals are shown, except for Championships. Animals imported in dam are considered as imported animals.
- 2. Special ribbons will be awarded in the championship classes, and where the exhibitor is not the breeder of the winning animal, special breeders' ribbons shall be printed after the show and mailed to the breeder. These are in addition to the regular special ribbons given the exhibitor.
- 3. When the grand champion stallion or mare is bred by exhibitor a sterling silver trophy will be awarded to said breeder-exhibitor, but only one such trophy will be awarded on one animal in one season regardless of how many state fair championships said animal may win.
- 4. A sterling silver medal will be awarded to the breeder of each American-bred animal winning first prize money in a regular open class for individual animals, any age, either sex. Same includes class for mare and foal by side.
- 5. A sterling silver medal will be awarded to the owner of the mare whose produce wins first prize or the owner of the stallion whose get wins first prize in their respective produce of mare and get of sire classes.

CONDITIONS—All animals competing for above prizes must be recorded in the Percheron Stud Book of America. No animals can compete for these special premiums unless they stand on the records of the Society as owned by the exhibitor at time shown, except in get of sire, produce of dam and other group classes. Unrecorded colts are not eligible to compete for these special prizes unless the exhibitor furnishes the Secretary of the Fair with the name and recorded number of sire and dam of each such colt, together with the foaling date, and unless the exhibitor files with the Percheron Society of America application to register such colts within ten days after the close of the Fair. All animals competing must be regularly entered on the books of the Secretary of the Fair when the horses are shown, and the correct name and number of each animal given.

WAYNE DINSMORE, Secretary.

Percheron Society of America, U. S. Stockyards, Chicago, Ill. E. B. WHITE, President.

# Horse, Mule and Cattle Owners

Friends:---Should your stock be troubled with any one of the following named diseases:

Moonblindness, Fistula, Farcy, Poll Evil, Nasal Gleet, Distemper, Grease Heel, Lump Jaw, Barb Wire Cuts, Blood Poison, Tonic, Flesh and Vitality Producer, etc.

they can be readily and cheaply overcome by feeding a reasonable amount of

## "CUTLER'S BLOOD PURE POWDERS"

that purifies the blood without the use of any external means such as Knife, Cutting, Burning' Blisters or Liniments. Usually from \$5.00 to \$7.50 worth of the powders overcomes 85 per cent with everybody treating in 3 to 16 weeks' time.

Any child 10 years of age can make a successful treatment, as the powders do the job if treatment is made as directions and instructions plainly show. Should you or your neighbors be so unfortunate as to have such animals we suggest you call on your druggist or veterinary and get the powders, but should they not have them on hand, we will be glad to fill your orders if cash accompany the order, and assist you in making a proper treatment.

The powders are well known by many and highly recommended by all who make a

proper use of them.

Should you be interested, but entertain doubts, we will be pleased if you will investigate.

We are ready the users or write to the manufacturer for other and more explicit information. We are ready to warrant by written contract for \$25.00. No Cure, No Pay.

## C. F. CUTLER, Owner Sole Manufacturer and Exporter DEEP RIVER, IOWA, U. S. A.

## Sold by Druggists and Veterinarians

I have used these powders in my practice for ten years, and have never failed to cure all cases I used them on.

DR. E. F. LOWRY, V. S., Ottumwa, Iowa.

### SMILE On Wash Day with a

### **ELECTRIC WASHING MACHINE**

Take the drudgery out of those big farm washings. Let the Thor do the work for you. It's a job for a machine, not a

woman, anyway.

You want the Thor on your farm for the same reason that you want the best farm tools. The best in both cases is by far the cheapest in efficiency and length of service. You pay a trifle more for the Thor at the start, but it serves you a lifetime.

Do not fail to see this wonderful home labor saving device and have it explained to you at the

Phone Wal. 660 THOR ELECTRIC SHOP 908 Walnut St,

Des Moines, Iowa

### MAY ECHO SYLVIA BULLS

AVONDALE FARM, Brockville, Canada, offer grandsons of MAY ECHO SYLVIA, undoubtedly one of the three or four greatest cows in the world. These calves are sired by CHAMPION ECHO SYLVIA PONTIAC, her son. His sire is SPRING FARM KING CORNUCOPIA, a son of the first 44-lbs. cow. These calves all come from high record A. R. O. dams, are all well marked and beautiful individuals. Will be sold guaranteed in every respect.

MAY ECHO SYLVIA is the only cow to make 152 lbs. milk in a day and over one thousand in a week.

She is the only cow to have four records of over 35 lbs., one of these being 41 lbs. and the other 37 lbs. She has a fifth of over 33 lbs.

She is the only cow to have two records of over 950 lbs. of milk in a week, neither of which has ever been equalled.

She is the only cow to average 128 lbs. a day for a hundred days.

She is the dam of the only calf that ever sold for over ONE HUNDRED THOUSAND DOLLARS CASH.

Remember everything we sell is guaranteed to satisfy.

A. C. HARDY, Prop. H. LYNN, Supt.

### For All of Iowa

Better service, not for Des Moines people alone, not for residents of the immediate community alone, but for as wide a circle as possible--for all of Iowa in fact--is the thing for which the Harris-Emery Company is constantly striving.

It is our desire to continually widen our scope. While in the city you may profit by use of our lounging and rest rooms, our Tea Room and Cafeteria, and our other 66 departments.

And when you return home, remember that our Personal Shopping and Mail Order departments are eager to assist you in buying and that any order received here, whether for a specific article or for one requiring more painstaking selection on the part of the clerk, will receive the most thorough and careful attention.

Ninth to thirteenth prizes, inclusive		\$20.00
Fourteenth to eighteenth prizes, inclusive	4,00	15.00
Fourteenth to eighteenth prizes, inclusive		12.00
Nineteenth to twenty-third prizes, inclusive		10.00
Twenty-fourth to forty-third prizes, inclusive		TU.00
Forty-fourth to fiftieth prizes, inclusive		0.00

In addition to the above liberal prizes, the American Short-horn Breeders' Association offers one dollar for each two dollars won by calves showing predominance of Short-horn breeding.

The American Hereford Cattle Breeders' Association offers \$10 for

the best and \$5 for the second best Hereford calf shown.

The American Aberdeen Angus Breeders' Association offers \$15, \$10, \$10, \$10, \$5 and a gold and silver medal for the best Aberdeen Angus calves in the contest.

Ribbons will be awarded designating the standing of calves in the contest from first to twelfth place; from thirteenth to fifteenth place the ribbons will be marked "Honorable Mention" instead of the standing in the contest.

### Special Prizes.

A Silver Loving Cup, of which W. J. Kennedy, of Sioux City, Iowa, is the donor, will be awarded to the boy or girl winning first place in this contest. This will be a beautiful and valuable trophy and should serve as an added inducement for the boys and girls of Iowa to put forth their best efforts.

Maj. T. P. Spillman, Mgr. Dr. G. H. Gillette, Chief Veterinarian

HIS four-page insert was printed by the Omaha Printing Co., Omaha, Nebr. The illustrations on the following two pages exhibit the character of work this firm has set as a standard for high-class, efficient, sales-promoting livestock catalogs. All breeds are represented in the very wide range of livestock catalog service rendered by the Omaha Printing Company.

Progressive breeders everywhere realize the value of this exclusive, painstaking service. Your next catalog should bear the Omaha Printing Company stamp of excellence.

A. J. SAMUELSON

T occurred to Mr. Samuelson, several years back, that the Purebred industry of America was worthy of the best catalog service that could be had. He built an organization for this particular service. You are familiar with the results. Not only breeders, but the general public have been vastly interested by the pictorial livestock catalogs produced by the Omaha Printing Company

### Omaha Printing Company

Livestock Catalog Specialists 1214-16 Howard St., Omaha, Neb.

S. E. HUSSEY

R. HUSSEY was an early recruit to the organization established by Mr. Samuelson. He is identified heart and soul with the livestock catalog department of the Omaha Printing Company, which consists of a complete engraving, printing and electrotyping plant, all under one roof. When in Omaha, every breeder is invited to make this plant his headquarters
